Abstract title, (centered, font : Arial bold 14)

Presenting Author (underlined)[a], 2nd Author[b], Corresponding Author[a,*], …(centered, font : arial 10)

[a] *Institution, Street Address, City, Mail Code, Country (1 line per affiliation, centred ; font : arial 9 italic)*
[b] *Another Institution, Street Address, City, Mail Code, Country*

Please type or insert your abstract here, using Microsoft Word. (Normal style : left & right justified, arial 10, single spaced). Your abstract should be a maximum of 2 pages, the first for text and the second for figures or images. Then submit it as a *.doc or *.rtf document

MAM 2024 will be the 31st in a series of conferences devoted to research on materials and processes for the back and front end of the line, including interconnect and silicide materials.
Starting as a workshop on refractory metals and silicides in the 1980s and moving towards materials for advanced metallization in 1995.It is dedicated to international material scientists, process and integration engineers, and students.

The objective of the conference is to provide a forum for open discussions across fundamental and applied sciences and industrial applications. It is dedicated to international material scientists, process and integration engineers, and students.

Keynote presentations and invited talks will be given by scientific and technical leaders in each of the key areas to present the current state-of-the-art and to stimulate technical discussions.
